Clevy Keyboard 2
USB, Bluetooth and/or SimplyWorks RF

Ensure compatible connections with your devices and install any necessary drivers or software updates.

MD (Medical Device)

⚠ Read Before Use: Always read this guide and observe the respective country-specific regulations before using the keyboard. Pass this guide along if you give the keyboard to someone else.
Declaration of MDR Compliance: This product is classified as an MDR Class 1 medical device. It complies with all relevant EU regulations and standards. For more details, including the Declaration of Conformity, visit www.clevy.com or contact us directly.
Inspect for Damage: Do not use the keyboard if it appears damaged.

Intended Use:

The Clevy Keyboard is designed for versatile use in home, office environments, schools, and healthcare settings. It offers significant benefits for both adults and children, particularly those with motor impairments, developmental disorders or visual impairments. Each condition has been considered with specific adjustments, such as customized fonts, font sizes, colors, and keycap sizes. Additionally, the keyboard serves as an educational tool, aiding children in developing their typing skills.

Medical Device Classification:

The Clevy Keyboard is classified as a Medical Device under MDR Class 1 due to its specialized design for aiding individuals with motor impairments, developmental disorders, or visual impairments. Its customizable features and ergonomic design support therapeutic use in rehabilitation and education settings, enhancing accessibility and usability for its intended users.

User Profiles and Contraindications:

Including specific profiles of users and any known contraindications can guide appropriate use:

Suitable User Profiles:

- Children and adults with motor impairments
- Individuals with developmental disorders such as autism
- Users with visual impairments who benefit from larger fonts and visual cues

Contraindications:

- Not recommended for environments where precise control or high-speed typing is required, as the specialized design may not support such tasks.

Health and Safety:

Accessibility Features: Ensure that all accessibility features are functioning correctly. This includes key responsiveness and visual indicators.
Ergonomic Use: Position the keyboard to reduce strain on the joints and prevent discomfort during extended use. Adjust the keyboard height and distance to suit the user's posture, ensuring the shoulders are relaxed and the wrists are not bent while typing.
Electrical Safety: The keyboard is spill-proof, but avoid exposing it to excessive amounts of water or moisture. Ensure that all connections are secure, especially when using USB mode. Avoid exposing the keyboard to liquids or using it in wet conditions. In case of an electrical malfunction, disconnect immediately and consult technical support.
Child and Pet Safety: Although designed for all ages, keep small parts and detachable accessories away from children under 3 years and pets to avoid choking hazards.

Cleaning & Maintenance:

Regularly clean your keyboard using a soft, lint-free cloth dampened with water. Avoid using abrasive cleaners and excessive moisture to prevent damage. The keycaps' protective coating safeguards against wear from frequent cleaning. For disinfecting, use isopropyl alcohol with a concentration of 70-90%.

Product Care:

Environment: Keep the keyboard in a clean and stable environment to prevent accidental damage.
Accessories: Use only Clevy-recommended attachments/accessories to ensure compatibility and safety.
Cleaning: Wipe with a soft, slightly damp cloth. Avoid harsh chemicals and abrasive cleaners.

Customization and Repairs:

The Clevy Keyboard supports certain customizable features for accessibility. Only modify these settings as recommended. For repairs, consult with authorized service centers to avoid voiding the warranty.
Liability: Clevy is not liable for damages from improper use or misuse.

Emergency Procedures:

In case of product failure, cease use immediately to avoid potential hazards. Contact customer support for resolution or replacement guidelines.

Warranty, Compliance and liability:

24-Month Factory Warranty: The manufacturer is not liable for damages resulting from misuse, unauthorized modifications, or improper settings adjustments. Visit www.clevy.com for details.
WEEE Directive Compliance: ♻ Recycle properly at the end of life to protect the environment.
Declarations of Conformity: Compliance details for CE and UKCA can be found at www.clevy.com.
Regularity Compliance: This device complies with the necessary local and international standards for medical devices. Request the Declaration of Conformity of the keyboard for specific compliance details.

Environmental Considerations:

Store the keyboard in a clean, dry environment away from direct sunlight and extreme temperatures to maintain its functionality and appearance.

Usage Tips for Children and Users with Impairments:

Supervised Use: Recommended to be used under adult supervision, especially for young children and individuals requiring assistance.
Adjust Settings: Customize settings to meet the specific needs of the user, enhancing both comfort and usability.
Take Regular Breaks: Encourage taking breaks to prevent strain and fatigue.
Hygiene: Maintain cleanliness of the keyboard to ensure health and proper functioning.
Awareness of Surroundings: Be cautious of surroundings when using the keyboard in public or busy areas to avoid distractions or accidents.
Report Problems: Promptly inform a caretaker or responsible adult of any issues with the keyboard's functionality.

Federal Communications Commission (FCC) Statement

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1) This device may not cause harmful interference, and
2) This device must accept any interference received, including interference that may cause undesired operation of the device.

FCC RF Radiation Exposure Statement:

3) This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
4) This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 0.5 centimeters between the radiator and your body.

SAR information: 0.245 W/kg (1g)

CE Compliance

This device also complies with the essential requirements and other relevant provisions of the EU Directive(s) applicable for CE marking.

RoHS Compliance

This product complies with the Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU, which restricts the use of certain hazardous substances in electrical and electronic equipment. It is free from the restricted substances specified in the directive, including lead (Pb), mercury (Hg), cadmium (Cd), hexavalent chromium (Cr VI), polybrominated biphenyls (PBB), and polybrominated diphenyl ethers (PBDE).

RoHS
2002/95/EC

By using RoHS-compliant materials and processes, we ensure that this product meets strict environmental and safety requirements.

WEEE Compliance (Waste Electrical and Electronic Equipment Directive)

Disposal of Waste Electrical and Electronic Equipment

The crossed-out wheeled bin symbol on this product signifies that it should not be disposed of with household waste. Instead, it should be taken to a designated collection point for the recycling of electrical and electronic equipment as per the Waste Electrical and Electronic Equipment (WEEE) Directive 2012/19/EU.

Proper disposal and recycling of this product help protect the environment and human health by reducing the potential effects of hazardous substances. For more detailed information on disposal and recycling options, please contact your local waste disposal service or the manufacturer.
